April 13, 2021

Dear Staff, Students and Parents,

We have recently received guidance related to travel outside of Maine from the Moving Maine Forward plan updated on March 5, 2021. I want to take the time to update you in case you are planning to travel outside of Maine during April vacation, April 19 – 23.

Any staff member or student who travels to any state other than Connecticut, Massachusetts, New Hampshire, Rhode Island or Vermont will be required to either:

1. Quarantine for 10 days upon return to Maine, or
2. Quarantine until receiving a negative test result.

The test must be taken either:

- In the state you are visiting and no more than 72 hours prior to your return to Maine, or
- Once you return to Maine

Staff and students who are considered **fully vaccinated** (14 days after 2nd shot) will be exempt from the quarantine process and do not need to be tested upon return to Maine.

Any staff or students who have traveled to restricted states (states not listed above) and who have not been fully vaccinated, will not be permitted inside the school until a negative test has been received by the nurse's office or a 10 quarantine has occurred.

If an individual or family member is traveling internationally, a 7day quarantine AND a negative test will be required for those that are not fully vaccinated. If an individual is fully vaccinated, a COVID test will be recommended and a quarantine period will not be required.

Thank you for your continued efforts in keeping our schools open to in-person learning.

Sincerely,

Lawrence Worcester

Lawrence Worcester
Superintendent
